

# CALL FOR PAPERS

## **The Canadian Macroeconomics Study Group/ Groupe d'étude Canadien en Macroéconomie**

in conjunction with the

## **Department of Economics, Queen's University**

will host a two-day conference on

## **Quantitative Economic Dynamics**

**November 8-9, 2002**

The conference will explore recent theoretical methods in macroeconomics and their empirical applications to understanding productivity growth, business cycles, and labour markets. One or more sessions will be devoted to the effects of fiscal, monetary and/or exchange-rate policy on economic activity. Papers with an international focus are especially welcome, but all contributions in macroeconomics will be considered.

A total of 14 to 16 papers will be presented. Some travel support for participants may be available, and graduate students are encouraged to attend.

If you wish to present a paper or act as a discussant, please submit a completed copy of the attached SSHRC form. The SSHRC form will also be available on the conference web site. For presenters, a 100-150 word abstract of the paper should be included.

Discussants should write "Discussant Only" in Section C1.6. Please include your telephone number, fax number, and an e-mail address.

Submissions must be received by **March 31, 2002**. Email submissions are preferred, but submissions by fax or regular mail that arrive by the deadline will also be considered.

Completed papers may also be sent, if available (in PDF or Postscript form only).
