

CUSTOMIZED COSTS LESS

CUSTOMIZED & PRICED FOR YOU!

Your instructor has tailored this text to fit your course.

Tailored to Save You Money

This textbook has been customized for ECON 250 by your instructors at Queen's University. Chapters from the original text that do not pertain to your course have been removed in order to make the book less expensive.

Because chapters have been removed from this text, its page numbers are not always sequential—you will come across gaps. This is by design. This entire Queen's text, its cross-references and its index are fully functional.

Another student-friendly publication from W. H. Freeman and Company
